

Presentations

GEOHealth Hub update presentations

Presentation length: 15 minutes

Presenters: Hub PIs (joint presentations are acceptable)

Each GEOHealth Hub (pair of linked U01 and U2R) will provide an update that focuses on research activities and/or planned research and that addresses integration of training activities. In your presentation, please identify the research area your GEOHealth Hub is focusing on, why you are focusing on it, who you are working with, and where you are working. Please present highlights that may generate discussion and encourage collaboration. If there are other network meeting presentations associated with your GEOHealth Hub, please mention those presentations.

You may also address plans, challenges, experiences, or questions that you would like the rest of the network to consider. Please share what you feel would be of most interest to those in the GEOHealth network.

This may be joint presentations made by both U01 and U2R PIs, but we strongly recommend one PowerPoint for each hub.

These presentations are limited to 15 min. If the meeting is running as scheduled and the presenter stays within the 15 minute presentation time, there will be a couple of minutes for questions. There will be additional time for questions and discussion after all the presentations in each session.

Short Trainee/Collaborator Presentations

Presentation length: 5 minutes; maximum 3 slides

Presenter: Trainees, Former Trainees, Co-investigators, etc.

These short presentations will provide additional information on GEOHealth hub activities from trainees and collaborators associated with GEOHealth Hubs. The short presentations are intended to spark interest and further conversations during and after the network meeting. Please concisely describe the topic, the focal issue or question, and how the research connects to broader conversations in environmental and occupational health.

To ensure a timely schedule, these presentations are limited to 5 minutes.

Submit presentations by Friday, May 19th

Our intention is for everyone to share their presentation live from their own computers. However, in case there are technological issues during the virtual meeting, we are requesting a copy of your presentation to have as a back-up to share if needed. Please follow these instructions to submit your presentation so that all presentations can be organized and shared with our meeting support team.

Please name your file with your last name, first name, and whether it is a hub update or research presentation. (e.g., doe_jane_hub_update.ppt or doe_john_research.ppt).

Please email your presentation to Austin Downs (austin.downs@nih.gov) and Christine Jessup (christine.jessup@nih.gov) with "FIC/NIH GEOHealth Virtual Meeting Materials" in the subject line.

DEADLINE: All presentation files should be submitted by May 19th.

Pre-meeting practice sessions

The meeting's technical support contractor will be hosting **two practice Zoom sessions on Monday, May 22nd**. Please connect briefly at any time during these sessions to ensure that your Internet connection and slideshow presentation runs smoothly. Session times are Eastern Daylight Time (UTC/GMT -4). You will receive invitations to these sessions as calendar invitations.

9:00-10:00pm EDT

1:00-2:00pm EDT

Important Dates/Deadlines

May 19	Slide submission deadline
May 22	Pre-Meeting practice sessions at 9-10am and 1-2pm EDT
May 24-25	GEOHealth Network Meeting 8:00am EDT
